

My latest adventure! A Class-A, 32ft, Motorhome made by Rexhall. Just got him a couple months ago and ncknamed him REX of course. We went Thanksgiving on a road trip all the way up the Oregon coast. It wasn't very good weather but I logged over 1000 miles! Was sure glad to have a warm dry place to stay when we had the huge wind storm a couple weeks ago. We lost power at our house for 4 days, no heat, no lights so we went to the motorhome. Fired up the generator and even watched the evening news!

Happy Holidays Everyone!!

PS: Highlights:

Ed was hired on full-time with B-Line as a programmer

My sister and brother in law are expecting their first baby 1/3/2004

My brother and his wife purchased a second home and are doing well

I turn 39 – yikes

Keep in touch – my email is : scolbeth@comcast.net
